

## Geelong Energy Efficiency Service Providers List (April 2018 update)

***This is a list of suppliers who are skilled in energy efficiency practice, not a 'recommended supplier list'.  
City of Greater Geelong / Future Proofing Geelong does not guarantee the service providers on this list.***

***These suppliers have been assessed on the type of service they provide and their availability to Geelong businesses only. Council has conducted no further due diligence activities on these suppliers e.g. confirmation of up to date and relevant insurance / OHS documentation or general business checks. Council recommends that you undertake your own due diligence activities prior to using any of these suppliers.***
